WORK EXPERIENCE

Product Designer, Apple

January 2022 – Present (3 years) | Austin, TX

- Driving the redesign of a manufacturing UI used by 42k+ international users, conducting research and rapid prototyping with cross-functional teams to improve accessibility and consistency in data-intensive workflows.
- Designed and launched a multi-user web application for detecting fraud and improving machine learning models that saved ~\$4.4M in its first year of launch; currently it has 150+ users and supports 6+ product lines.
- Created a responsive team brand page for 150+ team members, using content-driven design to communicate its mission and offerings to 14+ Apple teams.
- Mentored students through Apple Design Discovery and Apple Engineering Camp, fostering curiosity, problem-solving, and inclusive design.

User Experience Designer, SolarWinds

August 2017 – December 2022 (5 years) | Austin, TX

- Designed and launched an enterprise logging product; delivered 14+ features and a major UI redesign across multiple applications for users to manage their networks, systems, and IT infrastructure.
- Led user sessions, surveys, and testing to generate actionable insights that drove product strategy and design decisions.
