WORK EXPERIENCE

Product Designer, Apple

January 2022 – Present (3 years) | Austin, TX

- Driving a redesign of a manufacturing UI for 42k+ international users, conducting research and rapid prototyping with cross-functional teams to improve accessibility and consistency in data-intensive workflows.
- Designed and shipped a multi-user web application for detecting fraud and improving machine learning models. Since launch, the application has rolled out 3 new features, supports 6 user types, and has 150+ users. Estimated fraud savings for FY2024 was \$4.4M.
- Designed a responsive team brand page for a team of 150+ members, using content-driven design to communicate our mission and offerings to 14+ diverse Apple teams.
- Mentored youth through Apple Design Discovery and Apple Engineering Camp, fostering curiosity, problem-solving, and inclusive design.

User Experience Designer, SolarWinds

August 2017 – December 2022 (5 years) | Austin, TX

- Led the design and launch of an enterprise-level logging application. Delivered 14+ features and a major UI redesign across multiple applications to enable users manage their networks, systems, and IT infrastructure.
- Completed a 3-month user research mentorship under Senior UX Researcher, leading user sessions, surveys, and testing to generate actionable insight that drove product strategy and design decisions.
