Product Designer with 8+ years of experience designing **enterprise web applications** and workflows for **10k+ users**. Skilled in **cross-platform web & mobile interfaces**, **design systems**, and **AI/ML-integrated solutions**. Track record of improving usability and driving adoption through **user research** and **rapid prototyping**, and **data-driven design**.

WORK EXPERIENCE

Product Designer, Apple

January 2022 – Present (3 years) | Austin, TX

- Designed and launched a multi-user fraud detection web application, applying **iterative prototyping**, **user flows**, and **data-driven design** to improve **AI/ML model performance**; scaled to **150+ active users** across **6+ product lines**, saving **\$4.4M+** in the first year.
- Redesigned a complex manufacturing UI for **42k+ global users**, leveraging **user research**, **usability testing**, and **information architecture** to optimize workflows and improve accessibility, consistency, and efficiency.
- Led the end-to-end UX design of a brand page for **150+ team members**, implementing **component systems** and **content-driven design** to improve product visibility and engagement across 14+ Apple teams.

User Experience Designer, SolarWinds

August 2017 – December 2021 (5 years) | Austin, TX

- Designed and shipped an enterprise-level logging product, delivered **14+ features** and a **major UI design**, and built a **design system** from ground-up.
- Conducted **usability testing** and **A/B testing** to inform product strategy; collaborated with product managers, engineers, and researchers in an **agile environment** to translate technical requirements into intuitive enterprise software experiences, improving usability and cross-platform consistency.
